CONGRESSIONAL.

House.

(Conclusion of Friday's proceedings

The House then went into committee of the whole on the postoffice appropriation bill

Holman moved to amend by increasing the item for inland transportation from $14,500,000 to $15,000,000 the amendment after debate was adopted

Without disposing of the bill the committee rose when Vahn (?) made a partial report on the subject of government printing The report states that the Congressional printer has charged for work of executive departments on excess ranging from 30 to 12 per cent beyond the regular rates that he had been paying more than ordinary retail market prices for many of the articles purchased for the office that he has invariably purchased supplies from middlemen allowing to them a heavy profit that the prices paid for labor are greatly in excess of those of other establishments while a day's work is 8 hours against 10 hours in private establishments and that as at present managed printing and binding for Congress and departments cost more money than it would be done for by responsible private parties That the waste of gold leaf for the last [illegible] years which has been appropriated by the superintendent of the binding departments estimated at $14,000 The report declares that a system of unparalleled extravagance pervades every department of the government printing office In regard to the printing of the Congressional Record The committee is of the opinion that it would be in the interest of economy to remove its publication from the government printing office and give the contract to Franklin Rivers The report describes the book keeping to have been of so loose a character as to be entirely unreliable and says that the Congressional printer has demonstrated fully in the mind of the committee his utter disqualification for the proper discharge of his duties and that his subordinates are very little better in that respect than their chief The internal management of the office is represented as worse if possible than the book keeping and as being of such a character as the most substantial private establishment in the country This management comprises the lending of machinery and material to private parties, the employment of men on account of political influence who were totally unfit to earn their wages the payment of employes while absent at elections the selling of records and documents on credit in violation of law the execution of work for private parties the forcing of balances and the falsification of accounts In conclusion, the committee expresses the opinion that the work at the government printing office costs half a million dollars a year more than it would cost if done by responsible private parties under a proper contract system and that it is wise to take immediate steps for the discontinuance of the office The committee also recommend that the proposition of Franklin Rivers, of May 2 1876, for the printing and binding of the debates of Congress be accepted and a contract entered into to take effect at the beginning of the next session and that the printing and binding of the departments shall be under the control of the heads of those departments, and shall be executed under contract The report closes with resolutions instructing the Speaker to certify the testimony to the District authorities, to the end that the Congressional printer may be indicted and prosecuted and instructing the judiciary committee to inquire if he is an officer who may be impeached instructing the committee on appropriations to report, in sundry civil appropriation sections for the abolition of the government printing office and providing for printing and binding for all departments of the government. The report was ordered printed and recommitted

The Speaker's leave of absence was extended for ten days.

Several amendments relating to postmasters salaries were offered and withdrawn but one by Clark of Missouri to strike out the proviso fixing maximum salaries of all postmasters other than that at New York at $4,000 After a long discussion the vote was taken but no quorum voting Holman agreed to allow a vote upon it The next vote was on the amendment by Cameron of Illinois in reference to box rents no quorum and then was a call of the House to which only 114 members responded The committee then rose

Luttrell introduced a joint resolution authorizing the appointment of commissioners to ascertain on what terms a mutual beneficial treaty of commerce with Mexico can be arranged

Glover introduced a resolution setting forth that I H Fitzhugh doorkeeper of the House is not a fit person to hold the position of doorkeeper and that he be dismissed Referred to the committee on rules with instructions to report as early as possible

Speaker pro tem Cox laid before the House three resolutions from the New York chamber of commerce one as to the silver coinage, one as to the New London naval station and one as to the signal service bureau also a memorial of the New York board of trade as to postage

In a summary of the report yesterday on the government printing office an unintentional injustice was done to the superintendent of the printing department who it was stated appropriated to his own use the waste gold leaf The statement of the committee is that workmen were allowed to appropriate it The House at 4:10 adjourned

Government Printing Office Investigation.

NEW YORK May 13.—The *Times* Washington special argues if Clapp is incompetent that is no reason why the office should be abolished The investigation was supposed to be secret yet Franklin Rivers towards whom the committee is so generous, was present every day Clapp was offered two days or less to present rebutting testimony but the testimony then consisted of 1,000 pages It was only when he found his defense was to be restricted that he appealed from the jurisdiction of the committee The *Times* thinks this partial report was made solely for political purposes

Mismanagement in the Treasury—Prender Examined.

Prender was further examined about the mismanagement of the treasury Cross examination developed the fact that his original story was worthless. On the direct examination he testified to the loss of $50,000 but to day has acknowledged that the loss consisted of imperfect notes printed on one side only and consequently valueless which were cut in strips and used as bands He confessed he testified before the Congressional committee in 1870, but said nothing of these matters although he had all the information then that he has now The committee are indisposed to investigate further

Medill of the Chicago *Tribune* will it is said swear that Wilson told him that Blaine did make such statement, The investigation promises to reach proportions second to the Credit Mobilier investigation as the following is the list of witnesses who thus far have been summoned Sidney Dillon president and F H Rollins treasurer of the U P Co government directors Wilson Millard and Harrison Thos A Scott president in 1872 of the company I P Morton Leonard and Sheldon H A Crane D B Sickles H F Fahnestock Henry Clews of New York H B Wilbur Jno McClure of Arkansas A A Hadley O I Carey Police Commissioner Wheeler of New York W P Dickson J K Sickles W P Robinson Gen G M Dodge A P Spencer and J M D Williams

There is little doubt that secretary Rollins did make the charge against Blaine of corrupt connection with the $64,000 Kansas bond transaction It is said that Rollins will admit before the investigation committee that he made such an insinuation to Director Harrison but will explain by saying he used Blaine's name only in hope by so doing he could arrest and prevent an investigation that was in contemplation Director James F Wilson who was summoned here as a witness says he knows nothing about the transaction and is indignant at being brought here to testify that nothing ever came to his knowledge justifying the story against Blaine

Important Bill.

Senator Sargent will to morrow introduce the following important bill to restrict the immigration of Chinese to the United States Be it enacted, etc that no master of any vessel owned in whole or in part by citizens of the United States, or by citizens of any foreign country shall take on board such vessel at any port of the Chinese empire or any other foreign port or place whatever, any number exceeding ten Chinese passengers, whether male or female with intent to bring such passengers to the United States or shall bring such passengers within the jurisdiction of the United States

Section 2 Whenever the master of any such vessel takes on board the same at any foreign port, or place any greater number of Chinese passengers than those prescribed in the first section in this act with intent to bring said passengers to the United States or to bring such passengers within the jurisdiction of the United States, he shall be deemed guilty of a misdemeanor, and shall for each passenger so taken on board and brought within the jurisdiction of the United States exceeding the number ten be fined one hundred dollars and may also be imprisoned, for not exceeding six months

Sec 3 The master of any vessel arriving in the United States or any of the territories thereof from any foreign place whatever at the same time that he delivers the manifest of his cargo and if there be no cargo then at the time of making the report of entry of the vessel pursuant to law, shall in addition to other matters required to be reported by law deliver and report to the collector of the district in which such vessel shall arrive a separate list of all the Chinese passengers taken on board of the vessel at any foreign port or place which last shall be sworn to by the master in the same manner as defined by the law relative to the manifest of cargo and the refusal or neglect of the master to comply with the provisions of this section shall incur the same penalties disabilities and forfeitures as are provided for refusal or neglect to report or deliver the manifest of the cargo

Sec 4 The amount of the several penalties imposed by the foregoing provisions shall be a lien on the vessels violating these provisions and such vessels shall be libeled therefor in any circuit or district court of the United States where such vessels shall arrive

Sec 5 Informers shall be entitled to one half of any penalty or fine collected under the provisions of this act upon their information

Sec 6 Nothing herein contained shall be held to repeal or modify any law forbidding the importation of coolies or females for immoral purposes into the United States provided that no consul or consular agent of the United States, residing at any port from which any vessel carrying Chinese passengers may take her departure shall grant the certificate provided for in section 2162 of the Revised Statutes for more than 10 Chinese passengers on any one vessel

Sec 7 This act shall take effect from and after the 1st of September 1876.

Sargent's purpose is, at the first opportunity to continue to press his Senate resolution requesting the President to negotiate a modification or abrogation of the emigration and equal privilege articles of the Burlingame treaty although the Senate has already on his motion directed its committee on commerce to report as to the necessity of legislation to resist Chinese immigration regardless of existing treaty stipulations It is said by an eminent jurist to be well settled by the supreme court decisions that congressional legislation, approved by the President can overrule previous engagements of treaties but Sargent's pending resolution and Page's forthcoming proposition will with abundant precaution treat this question as doubtful and obviate all objections of that kind by inviting the Chinese government's consent

Representative Page will on Monday offer for passage under a suspension of the rules a joint resolution prepared by him several days ago requesting the President to direct our minister in China to submit as an additional treaty an article that the United States reserves a right through its legislative department to regulate restrict or totally prevent the immigration of Chinese into this country and that the Chinese government may exercise a similar power anything in the present treaty to the contrary notwithstanding

MONDAY MORNING, MAY 15, 1876.

SATURDAY'S PRIMARIES.

The primaries held Saturday were a complete rebuke to the methods which in the past caused so much discord in the Republican party. The same methods were undertaken again by one who appears not to have learned anything of the temper of the people from an experience which certainly ought to have taught him a lesson. We refer to J. M. Caywood, who, as is generally known, has been for some time engaged in an attempt to force himself on the Republicans as a candidate for Sheriff. He had a corps of strikers on hand, with whom he went into the contest after the fashion of the times when Holladay and "Mitchell" were in their glory. But the two or three thousand dollars spent by Caywood to hire rounders and shoulder-hitters to bully citizens from the polls was entirely inadequate to the purpose. The count showed throughout the city, four votes against his ticket to one for it. He should have remembered that the great primary of 1872, which carried "Mitchell"—without the quotations then—into the U. S. Senate and the Republican party into disgrace, cost the ring managers over $20,000.

We have spoken of the defeated delegate ticket as Caywood's ticket, not merely because it was the ticket he supported, but because it was a ticket of delegates selected with special reference to his nomination for sheriff. One of these tickets lies before us as we write. Over the list of delegates' names stands, in conspicuous type, the heading "CAYWOOD FOR SHERIFF." So the issue was presented in as sharp form as it could be, and he was repudiated by an overwhelming vote. It was not the names of the men named as delegates that killed the ticket, but the purpose which, by the heading of the ticket, they were pledged to carry out.

The proceedings in one precinct—North Portland—deserve special notice as we go along. In that precinct there were two polls opened. They may with propriety be designated, respectively, as the Republican primary and the Caywood primary. The Caywood primary was, of course, run upon the Caywood plan. The Republican primary was conducted decently and in order. The delegates selected by the Republican primary are the same who were sent to the late county convention. It had been generally understood that the same delegates were to be selected in the city precincts. This, it was thought, would secure a convention unpledged to any candidate for any office, and be the means of putting a ticket into the field without any jobbery in it. To this plan Mr. James Lotan, chairman of the county committee, was pledged. Yet we regret to have to say he was a conspicuous manager of Caywood's side show. Good faith required Mr. Lotan to refrain from taking any part in the Caywood primary against the Republican primary, and decency required him, being a Federal official, not to soil his hands with Caywood's pitch.

Of course, then two delegations will go up to the convention and demand admission. They can not both be admitted. The convention should rebuke, at once, the attempt to carry primaries with hired roughs and the bad faith of the Committee man, by admitting the delegates selected by the Republican primary and rejecting those of the Caywood concern. It would be a just decision, and a wholesome warning to persons who think to force themselves on the people; and it would meet the approval of the entire community. But whatever else they do, the convention should not think of nominating Caywood for Sheriff. Two years ago he was beaten for re-election, for reasons that ought to beat him, and will beat him now, should he be nominated. The people want no more of his big grabs out of the treasury of the county and his inability to find and serve process upon a man who helped him to his office, though the man was known to be in the city three or four days after the papers were put into his hands for service. The nomination of Caywood would end in a Waterloo defeat.

There is one more matter that may as well be spoken of while we are on this subject; and that is, that it is high time a final end were put to this thing of subordinating all the interests of the county and State election to the petty contests between candidates for sheriff. The legislators, and the county commissioners, are matters of too great importance to the taxpayers to be swapped and bartered in the interest of candidates for the shrievalty. Let the unpledged delegates assemble in convention and honestly endeavor to present a ticket that will command the respect and confidence of the community, and there need be no fear of defeat. That will secure harmony and harmony will secure success.

"PRINCIPLES, NOT MEN."

The party whips have a way of urging the people to support the candidates nominated by their conventions, whether worthy of support or not, on the ground that it is principles and not men that are involved in the election. This is a specious plea, but utterly devoid of force when brought to the test of analysis. In the first place it is difficult to say in what the distinctive principles of any party are, just at this time. Democracy in one place is Republicanism in another place. If the heading were off the platform of either of the parties in Oregon, and the buncombe resolutions about the glories of one party and the delinquencies of the other, were eliminated, it would be impossible for a stranger to determine which was the Democratic and which the Republican platform. What then are the great principles in either party which are of such vital importance that the citizen should vote for the party nominees without regard to their personal character and qualifications?

But, aside from the fact that the Democrats have so far abandoned all the principles on which the party formerly stood, that there is no longer any perceptible difference between a good Democrat of the present day and a good Republican of the old school, is it reasonable to expect unworthy men to be safe representatives of worthy principles? No bad man can be a fit representative of an honest party. The only way to carry out grand principles is to select for that purpose men who have conscientious convictions, men whose political principles are not a mere convenience, to be put on or cast off as their interests may seem to require. Principles, in politics, are important things; and when there are such differences in the matter of principle as to form a reasonable ground of division, their importance should never be overlooked. But it should never be supposed that principles would be carried out without men. In any imaginable state of things, personal character is of the last importance. "*Men and principles*" should be the motto, instead of "*principles, not men*," and under present circumstances *men* are of much greater importance than any difference of principle which can be pointed out by the advocates of any partisan ticket.

LOOK AT THESE FIGURES.

This is a good time for tax-payers to compare the expense of the county administration under the present management with that under the management immediately preceding. A general view of the subject can be had by a glance at the following figures:

OLD ADMINISTRATION.	
County warrants drawn for the fiscal year ending July 1, 1873	$76,467 43
For the year ending July 1, 1874	90,789 82
NEW ADMINISTRATION.	
Warrants drawn for the fiscal year ending July 1, 1875	45,556 23
For the ten months ending May 1, 1876	42,883 65

All warrants drawn to pay up temporary loans have been excluded from these figures, so as to leave simply the current expenses of the county government.

The committee, we understand, will commence to-day to solicit funds for carrying out the programme for the general celebration of the Centennial Fourth of July in our city. There should be no backwardness about responding to this call. The arrangements have been made for such a celebration as the occasion requires. The city fathers did wisely in making a much larger appropriation than usual, and the committee having the matter in hand have but reflected the desire of the people in preparing to make this the grand celebration of the Northwest. Distinguished guests have been invited from abroad, and multitudes will be here from every part of the State. It is the occasion of a century. This, too, is the quarter centennial year of the city government. Let there be such festivities as will do credit to our city and State.

Mr. Geo. P. Rowell, the famous newspaper statistician of the United States, is to be in charge of the newspaper department of the Centennial Exposition.

THE CENTENNIAL.

[BY TELEGRAPH.]

PHILADELPHIA, May 12.—The exhibition will be kept open during the evening. The number of paying visitors to day is 16,000, chiefly foreigners.

PHILADELPHIA, May 13.—The fine weather this morning has invited large numbers of visitors out to the Centennial grounds. Around the gates it is easy to observe a decided increase over yesterday in the crowd entering the grounds. Up to 11 o'clock there were about 40 000 visitors. Car loads of goods are still arriving from all points, especially from the West. Most of the articles are deposited in Machinery Hall building. That most backward in preparation now is Agricultural Hall, which will not be in order for a week.

Arrival of European Works of Art.

S. S. *Supply*, with works of art from Europe, arrived to-day.

American Exhibition Judges.

The *Tribune's* special says: The one thing most seriously guarded by the Centennial authorities is the list of American judges. The *Tribune*, however, prints them exclusively this morning. They were not to be made public until the 24th. There are 125 American judges, selected with great care, who will be paid $600 each for services. The following are the names of those in which the Pacific slope are most interested: On mines and metallurgy, S. B. Axtel, New Mexico; J. W. Mackey, Nevada; J. D. Hague, California; W. S. Keyes, Nevada. On animal and vegetable products, Gen. H. M. Negley, California. On furniture, upholstery, etc., General Gibbons, Montana. Wool and silk fabrics, H C Goodspeed, Utah. Jewelry, silver ware, bronze, etc., Peter Gottlespel, Cala. Machine tools, wood, metal and stoves, Irving Scott. Machines for making clothing and lace, L. B. T. Poor, Dakota. Agricultural implements, James Bruce, Oregon. The *Tribune* also gives in other places the English and French judges, making altogether several columns.

Protest against Closing the Exhibition on Sunday.

PHILADELPHIA, May 13.—A large meeting of citizens to protest against closing the Centennial Exhibition building on Sunday was held to-night at Musical Fund Hall. Rev. D. Furness presided and addresses were delivered by Chairman George W. Biddle, Col. John W. Forney, Dr. Bellows, of New York, and Col. Fitzgerald. A series of resolutions were adopted expressing the opinion that the opening of the exhibition during the first day of the week, either free to all or at reduced rates, will promote the cause of religion and of morality as well as the happiness of the people by providing a place where all may contemplate on this day the handiwork of the Creator as well as the achievments of human genius, industry and skill. The meeting was enthusiastic throughout and resolutions were adopted amid great applause. A committee of thirteen was appointed to urge upon the managers of the exhibition an early adoption of rules in accordance with the purpose entertained by the meeting.

Price of Admission.

PHILADELPHIA, May 14.—The Centennial commission have done away with the regulation requiring a 50 cent note, or a 50 cent silver piece, to secure admission. Hereafter 50 cents of any kind will admit the visitor.

Official Catalogue.

The second edition of the official catalogue will be issued in a short time. The various inaccuracies and deficiencies in the present issue will be rectified.

The Tribune's List of Judges Incorrect.

The special committee preparing the list of judges of committees of award authorize the statement that the publication by a New York journal of a list of such judges is incorrect in so many respects as to be entirely valueless as a guide. The published list was one of several projects rejected without being revised. It is only fractionally correct and several weeks old. A few printed copies of it were held for the personal use of the committee. The official list meanwhile is being changed from time to time while in process of being perfected. Important substitutions have recently been made, where the original appointees declined to serve, and their places have been filled by others omitted, from the newspaper publication, and the names intended for those of many who have accepted appointments are misspelled. From the possible confusion and annoyance resulting from this cause the committee express their regret and disclaim all responsibility for, or connection with, the appearance of such list. Owing to the tardiness of some judges in responding to the notification sent to them of their nomination, either by acceptance or declination, it is impossible for the committee at this time to make any public announcement of appointments. It is their intention as soon as the selections are completed, or are within two or three, or half a dozen of completion to make public announcement of them to the press impartially, which will be on or about the day on which the judges are invited to assemble.

CENTRAL AMERICA.

NEW YORK, May 13.—The *Herald* has the following by arrival of steamship *Honduras* yesterday: we have information from the seat of war in Guatemala and Salvador to the effect that fighting had been going on between the troops of Guatemala and Salvador, and that the loss on both sides was heavy. The army of Guatemala, under Barrios, had been successful in every quarter, having driven the Salvadorians before them from every field. A ship of war of General Barrios, had landed a large force in the rear of the city of Lualiona, which attacked the place completely routing the Salvadorians and planted the flag of Barrios upon the Custom house and public buildings. The victorious army pushed on to the interior driving the enemy before them, capturing many prisoners and causing the utmost demoralization within the ranks of the Salvadorians. At early dawn on the morning of the 19th the city of San Miguel was captured whereupon the President of Salvador sent a flag of truce and asked that they be allowed to make peace offerings. It is understood that Barrios would not treat with him upon any other terms than unconditional surrender. The *Honduras* was fired upon by a troop of Salvadorians while passing La Libertad. She hove to and received the Commandant on board who inspected the ship and allowed her to depart.

The President Returns to Washington.

President Grant and Cabinet have left Philadelphia for Washington.

Boise river has been quite high and has done some damage and caused considerable trouble to the farmers along its banks. The water is now receding rapidly, but it is thought that the approaching warm weather will cause the river to come up again.

PRESIDENTIAL SPECULATIONS.

[BY TELEGRAPH.]

The Democracy in Trouble.

WASHINGTON, May 13.—Some Western and southern Democrats becoming alarmed by the prospect of a split in the New York Democracy over the advocacy of Tilden for the Presidential nomination, the recent *Express* editorial being accepted as evidence that Tilden's opponents mean fight, have made an effort to quiet the alarm by urging that the *Express* only represents the personalism of John Kelly and Aug Schell. It fails to give satisfaction because those gentlemen are recognized as sincere honest party men unlikely to be controlled by mere personality any more than Erastus Brooks, editor of the *Express*. In the meantime, the silence of Tilden's organs indicates their anxiety to avoid a discussion that would intensify disharmony, the dangerous extent of which is recognized. On the other hand Tilden is the only Democratic candidate whose strength seems to be growing in the country. The Davis movement has dropped out of sight to be resurrected possibly at St. Louis. Hancock begins to be talked of but not much. Among the machine managers, neither Bayard nor Thurman grows apparently, while Hendricks, who was here this week, privately admitted himself out of the fight and regrets that the Democracy are not strong in Indiana as they were when Congress met. In fact his friends intimate that he does not want the nomination, because he considers a Democratic victory very doubtful, but the division in New York, adverse to Tilden, is now so pronounced that it is a question whether the latter can secure even the gubernatorial renomination, which it was understood his friends expected to make the condition of his withdrawal at St. Louis.

Blaine Still Leads.

There is little change in the Republican status. Blaine continues to lead, and will probably so continue unless his assailants have better luck in their new effort to show how he got good money from the Union Pacific through comparatively worthless Arkansas bonds. He is now quite sure of [illegible] of the delegates already appointed. Morton is conceded only 66. Conkling's friends claim 80 sure, and 40 more from Pennsylvania, when Hartranft withdraws, but they don't show Cameron's bill of sale for it. Hayes' friends base some pretensions on his 44 votes, which will most likely go to Blaine. Bristow, however, continues to hold the unrecognized popular support, though the politicians do not believe him formidable unless his friends effect a combination with somebody like Blaine, Bristow taking the second place. It is doubtful if the latter prove to have much voting strength in convention otherwise. Conkling's friends are more confident now that he could carry New York if he runs against Tilden and that gives them more courage, but as the two thirds rule will defeat Tilden the New York Democrats will unite upon some other candidate, when Conkling's nomination would secure the latter's defeat by Republican disaffection. Another rumor is that Morton and Bristow's friends will combine at Cincinnati and that all the other candidates are concentrating against Blaine.

A GOOD WASHING MACHINE.

THE

COMPLETE WASHER.

WITH GREAT SATISFACTION WE TESTIFY to the wonderful qualities of the "COMPLETE WASHER" Machine, which is in use by many of the best families in our city, because it makes wash day one of pleasure, and causes no wear of clothing or tire to operator. It is by excessive and exhaustive labor by the women of our land who are toiling all day long on an ordinary family washing in the hot suds, wearing away their knuckle bones and very lives every week in the year and going out from the seething tub to the cold air, which causes our mothers, sisters and loved ones to take cold so easily, causing pains in the back and limbs, rheumatism, pleurisy, chills and fever, etc., sometimes resulting in death. Ladies rescue yourselves from this thraldom, and purchase a "Complete Washer," the Premium Washer of our land, which economizes time and does away with this excessive labor: for you know that for one to handle by hand large articles, such as quilts, etc., that it is exceedingly difficult by the old mode. We advise and entreat everybody, therefore, to have one of these Machines. They are within the reach of every family.

Best of Wringers and Clothes Lines always on hand.

Of the great number who have this Machine in Oregon and on the Pacific slope, not one would part with it. Hundreds and thousands of such testimonials could be gotten.

The candidates for prosecuting attorney speak at St Helens to-day. They opened the campaign with luncheon together last night—evidently bound to take care of the inner man at all hazards.

James Blakeney, a deckhand on the *Daisy Ainsworth*, was badly injured last Thursday while handling railroad iron. Two toes were broken and a third had the nail knocked off by a bar of iron falling across his left foot.

There will be a special meeting of the Philomathean Literary Society next Thursday evening at 8 o'clock, at the southwest corner of Fifth and Columbia streets. Business of importance will be brought forward, and it is greatly desired that every member should be present.

Mr J. J. Browne school superintendent for this county, has received an invitation to attend the Teacher's Institute at the Dalles, to be held June 7th, 8th, 9th and 10th, and deliver the address on the evening of the 8th. We understand that the invitation has been accepted.

BOATING NOTES.

The steamer *E. N. Cooke* has been tied up for the present. There is now no boat running daily between Portland and Oregon City.

Work on the new revenue cutter is going forward vigorously. It is probable that the vessel cannot be launched until the subsidence of the high water.

Last Thursday the O. S. N. Co.'s fine steamer *Daisy Ainsworth*, while on the way from the Cascades to The Dalles, broke her rudder and did not reach the latter point until late at night.

The steamer *Emma Hayward* while coming up the river last Saturday ran afoul of a log and damaged one of her rudders. All necessary repairs were made yesterday, and no delay occasioned.

A large force of carpenters are employed on the new steam tug and pilot boat of Capt. Gilman and Holman, below the Greenwich dock. The frame for the hull is almost completed, and work of planking and caulking is shortly to follow.

Saturday, while the steamer *Welcome* was on the way to Portland from Kalama, she broke her shaft near the crank, and became helpless. Soon after the accident, the *Emma Hayward* came along and towed the *Welcome* to this city. She now lies at the boneyard, and will be repaired as soon as practicable. Until the steamer *Dixie Thompson* is ready to resume the Astoria-Portland line, which will be Thursday of this week, the *Gov. Grover* will take the Kalama route.

The new, and as yet incomplete steamboat, purchased some months ago by the O. S. N. Co., from Capt. Bechanan, is soon to be finished and placed in condition for service. The machinery has already been made and placed on board, and the boiler is being manufactured at the Willamette Iron Works. Painters are employed in plying the colors, and the ringing of the caulker's hammer can be heard. This new steamer will be ready to make the trial trip by the middle of June.

PICNICS.

The first picnic and excursion of the season was held at Vancouver last Saturday by the parents, teachers and pupils connected with the Taylor street Sunday schools. Captain Scott's handsome steamer the *City of Salem* was chartered for the occasion. At 9 o'clock the boat steamed away from the foot of Salmon street with several hundred excursionists on board. Reaching Vancouver about 11 o'clock, the excursionists debarked and wended their way to the beautiful little grove which is located several hundred yards from the landing. Early rising and the bracing breeze which swept up the Columbia, had the effect to sharpen the appetites of all, and, consequently, lunch was the first thing in order after the grove was reached. Lunch being discussed, the excursionists dispersed about the town. Many took a stroll to the garrison and spent an hour or more in promenading through the beautiful grounds about the post. Swings were arranged in the grove and a number of young ladies and gentlemen and little folks enjoyed themselves in that innocent sport. During the afternoon a lively game of base ball came off between the Spartan and garrison clubs, which afforded considerable pleasure to the crowd. At 3:30 o'clock the excursionists started homeward, arriving at this city at about 5:30. Although fatigued with the exercise and excitement of the day, the excursionists were unanimous in their verdict that the affair in all respects was successful and enjoyable. No accident occurred during the day, and nothing unpleasant transpired to mar the enjoyment of all who attended.

AMUSEMENTS.

MR. CORBYN'S BENEFIT.—Oro Fino Theater was crowded Saturday on the occasion of the benefit tendered Mr. Corbyn. An entertaining programme was rendered, which gave entire satisfaction to the audience. This morning the company will start for the Sound. A performance will be given at Olympia this (Monday) evening. The company will appear at Seattle to-morrow and Wednesday evenings, and at Victoria for the balance of the week. We bespeak crowded houses for the "Merry Makers."

Hon. Henry Failing is among the passengers on board the steamer *Ajax*.

Hon. H. G. Struve, secretary, and during the absence of Gov. Ferry, acting chief executive of Washington Territory, is at present sojourning in the city.

Hon. J. S. Drummond, mayor of Victoria, is now in this city. He comes as a delegate to attend the Grand Lodge I. O. O. F., which will convene at Salem to-morrow morning.

M. P. Bull, Esq., formerly a practicing attorney in Portland, the founder and, for a time, editor and proprietor of the *Evening Commercial*, is in the city, where he will remain for a few days. Mr. Bull left Portland over four years ago and since then has been permanently identified with journalism in Eastern Oregon. At present he is editor and publisher of the *East Oregonian* issued at Pendleton, Umatilla county. His numerous friends will be pleased to see him again after his long absence.

THE RIGHT SORT OF COLLECTORS.—Two Comstockers, members of a certain church in this city, were appointed a committee to collect subscriptions to a certain amount. One of the men being officially notified of his appointment, hunted up his partner and told him what they were expected to do. This last mentioned half of the committee stood aghast. "What are we to do about the matter?" said he. "Well, I'll tell you what I shall do—I shall just go into the bank here and draw a check for my half of the sum we are expected to raise." "Good," said the other, his countenance showing signs of relief. "Good? I never thought of that. I shall do the same." The pair went into the bank and drew their checks for the amount they were expected to raise and the trouble was all over.—*From the Virginia (Nev.) Enterprise.*

The following recipe is asserted to produce a cement of very superior character for uniting stone and resisting the action of water. It becomes as hard as stone, is unchangeable in the air, and resists the action of acids. It is made by mixing together 19 pounds of sulphur and 42 pounds pulverized stoneware and glass. This mixture is exposed to gentle heat until the sulphur melts, when the mass is stirred until it has become thoroughly homogeneous, and is then run into moulds and permitted to cool. When required for use it is heated to 240° Fahrenheit, at which temperature it melts, and may be employed in the usual manner. At 230° Fahrenheit it becomes as hard as a stone, and preserves its solidity in boiling water.

The coal expert who visited the Puyallup valley to examine the coal field for the Northern Pacific Railroad Company returned to Tacoma last week, and immediately started for the East. The result of his explorations will not be made public till the company have had the benefit of the information derived from his examination. The delay in procuring the necessary data for determining the practicability of building a branch road to the mines indicates that the construction of the road this year is by no means a certainty. Should the work be postponed for another year the disappointment will be very great, especially to the residents of the valley, who have been looking anxiously for its early commencement.

The Seattle *Tribune* says: "The contract for the trestling and piling the first two and a half miles of the railroad was given by Mr. Colman yesterday to Mr. Joe Surber, and the work was commenced at once by the driving of a few piles to mark the lines. Mr. Surber's contract includes the construction of the wharf, a piece of which, 50 by 150 feet, will be the first work done, so as to permit the landing of ties, iron and other materials. Mr. Colman will furnish everything, and Mr. Surber will do all the work, the piling, capping, stringing, everything except putting down the ties and iron.

There have been some radical changes in the last century. A hundred years ago they kissed a lady's hand, now you kiss her lips—that is, of course, if you happen to be behind the woodpile and nobody is looking, and you don't want to disappoint her. It may take one hundred years to get from her hand to her mouth, but we never felt that the time was misspent.—*Norwich Bulletin.*

"Come, Pete," said a merchant to a gentleman of colored persuasion, "what will you put that load of wood into the cellar for?" "In de fuss place, my name is Peter, sir; secondly, I'se a prefeshnal carpet cleaner and whitewasher; furdermo, I doesn't compete for sich jobs, sah?"

W. L. ADAMS, M. D., A. M., LL. D., corner of First and Salmon streets, is curing the most inveterate chronic diseases of all kinds at a low price, by medicated, electric lightning cream baths, and by combining the German and French with the American improved practice, mixed with a little common sense. His treatment is, in the main, entirely original, and works almost miracles, as his numerous patients will attest. A lady always in the office to assist in treating women.

Peter Wilhelm, at the "Fountain," First and Ash streets, keeps things in a cozy shape. His billiard tables are much admired and the new Virginius table is a great favorite. Call and see him.

"PROTECTION" ANSWERED.

TO THE EDITOR OF THE OREGONIAN:

Noticing in the *Evening Journal* of the 11th inst. a challenge to firemen over the signature of "Protection," which refers more directly to Linn Engine Company of this city, and proposes to make big bets on their Silsby machine, we have no objection to his making bets on his engine or the engine he is particularly friendly to. If he aims that as a challenge, let him or any respectable gentleman in Portland put his name to the communication, and if directed to us or our engine, we will give it some consideration, but as it is, we will give it none.

The writer of that anonymous communication has seen fit to change the telegram sent by Engineer Everson, who kindly came to this city, at our request, for the purpose of placing the engine in working order and assisting in testing the same, we think it our duty to see that he is not assailed unwarrantably, so far as he was connected with the *small* Clapp & Jones engine of this city. The telegram sent by Mr. Everson to Portland should read, "Tried 2's engine to-day, works well, Portland boys look to their laurels." This is what Mr. "Protection" takes exception to, after he has changed it to read, "Works first class, Portland boys had better look to their laurels," and says "I do not think it exactly in keeping with the spirit which animates a Portland fireman for the engineer of one of our largest steamers to have so little confidence in his second class machine," etc. Nowhere in that telegram does he (Everson) intimate that he has little confidence in his engine, or say that a fourth-class Clapp & Jones engine could out throw her. Mr. Everson came to this city to set up and test that *little* Clapp & Jones engine at our solicitation and request, with a true fireman's spirit—not as a rival—with the consent of Mr Eugene Protzman, foreman of Willamette Co. No. 1, of Portland, of which Mr. Everson is engineer. And he has done his work in a manner highly creditable to himself, and entirely satisfactory to the directors of Linn Engine Co. No. 2, of this place.

Mr. "Protection" says "there has been too much talk, so toss up the coin or stop chirping." What coin does he want tossed up? Let him say what he means over his own signature and it will be considered; but not in a public challenge over an assumed name impugning the motives of any gentleman. Linn Engine Co. No. 2 have made no boasts, simply tested their machine according to contract and found it as good as recommended. It seems as though "Protection" is considerable exercised over our engine, which Mr. Everson assisted with other gentlemen in testing as true firemen and not as rivals.

We did not purchase our machine for the purpose of gambling, but for a far more noble object, that of protecting the property of our city, and we hope it may meet our most sanguine expectations.

This is the choicest farming land in Marion county, with fine springs, consisting in part of the old Rector donation claim, on which I raised the past year fifty bushels of wheat and three tons of timothy per acre. The first crop of oats ever raised on part of this land measured ninety-four bushels per acre, grain weighed and ground chained by Mr. Alfred Stanton of Salem.
2,700 Acres of prairie and light brush land, with timber for farming purposes, bounded by the Willamette River for four miles, beautiful lake on the east, boat landings all along the river, commencing four miles north of Salem—all choice grain land—the largest and most suitable body of land to be found in the Willamette Valley to be purchased by a colony. "OUR OWN."

If I had known in the morning
How wearily all the day
The words unkind
Would trouble my mind
I said when you went away,
I had been more careful, darling,
Nor given you needless pain;
But we vex "our own"
With look and tone
We might never take back again.

For though in the quiet evening
You may give me the kiss of peace,
Yet it might be
That never for me
The pain of the heart should cease!
How many go forth in the morning
That never come home at night,
And hearts have broken,
For harsh words spoken,
That sorrow can ne'er set right.

We have careful thoughts for the stranger,
And smiles for the some time guest,
But oft for "our own"
The bitter tone,
Though we love "our own" the best.
Ah! lips with the curve impatient,
Ah! brow with that look of scorn,
'Twere a cruel fate,
Were the night too late
To undo the work of morn.

The Daily Oregonian.

MONDAY MORNING, MAY 15, 1876.

OREGON.

The Lane county jail is tenantless.

Wheat is quoted at 80 cents a bushel in Albany.

The *Democrat* seriously objects to a division of Linn, which some talk about.

The prize pen man took two hundred and eighty dollars clear profit from Roseburg.

The warehouse at the depot are filling up with goods for the southern part of the State.

Candidates for prosecuting attorney in the third district open the canvass at Scio to-day.

The public schools of Eugene have closed, and will not open till October giving the children a Centennial vacation.

The entire Lane County Mercantile Association has been subscribed and in the course of a few weeks they will commence operations.

A young man named Nelson Weisner was drowned near Canyonville on the 20th ult, in the South Umpqua. The upsetting of a small boat was the cause of drowning.

The remains of W. J. Small, who was drowned in the lower Klamath lake have been recovered, and will be brought to Lane county, his former home, for interment.

Charles Jones and Frank Mitchell were convicted of horse stealing by the grand jury of Douglas county last week. The judge will pass his sentence this week.

The number of letters registered at the postoffice, at Monmouth, during the quarter ending March 31st, was 84. Largest number of letters mailed in one day was 197.

Two horses, one owned by Capt Smith and one belonging to David Malone, of the Dalles, were shot and killed recently by some unknown person or persons. It is supposed to be some one who entertains ill will towards these gentlemen.

The stockholders of the Lane County Farmers Mercantile Association are hereby notified to meet on Wednesday, June 14, 1876, at 10 o'clock A. M., in Eugene City for the purpose of electing a board of directors, and for the transaction of such other business as may come before the meeting.

The Odd Fellows residing in Looking Glass, Douglas county, are about to organize a lodge of the order in that place to be called Mirror Lodge. They have made the necessary arrangements and are only waiting for a promised dispensation from the grand master and for settled weather to have said lodge instituted.

Mr. Messenger, who lives on Camas Swale, near Roseburg, met with a painful accident last week. He was trimming a tree in the mountains, preparatory to hauling the same down, when the tree started to roll, and rolling on him, knocked him senseless, causing, at the same time, the team to run away. The team was not materially damaged.

The Roseburg *Plaindealer* says: "Ten teams loaded with bacon and lard came into town Tuesday from Ten Mile and unloaded at the depot. The produce was immediately transferred to the cars and shipped to Portland next day. The farmers of that locality are a thriving energetic community, and nearly always have something ready for market."

The *Christian Messenger* of Polk county says: Our hop-growers, Bros. Lindsay and Rowland, have been busy for some days past poling their vines, until their hop fields look bristly with slender saplings. Their vines look exceedingly well, and they are sure to receive a bountiful return for their labors. We can raise just as fine hops around Monmouth as anywhere in the State.

During a trip to Roseburg, the editor of the *Independent* was shown by Mr. Asher Marks a lump of pure gold about the size of a man's fist, the result of the last clean up at the Esther mines. The gold is of a dark, yellow color and is valued at something over a thousand dollars, and is proof positive that in the [illegible] the stockholders have property with millions in it.

Sixty [illegible] of rock, known as croppings, taken from the Lucky Queen Mine in Douglas county, give returns of $28 gold per ton on an average, and two assays of rock taken from different places in the tunnel of the mine give $1,276 and $105 per ton respectively. The ledge is about six feet in width, and anywhere in the tunnel gold is to be seen with the naked eye in the rock.

The *Courier* says Yamhill county is making rapid strides in the line of clearing land. Five years ago where the brush was as thick as the hair on a dog's back the land is now all clear. The rate at which the land is being cleared is astonishing. A person who has been absent from the country five years already and should remain away two years longer would hardly recognize places that he was once familiar with.

The Dalles *Tribune* says: Large wagons, loaded to the brim, go out of town daily bound for various points in the interior. Some go to Ochoco; some to Canyon City and points beyond; some to Umatilla county; some to Klickitat and Yakima counties in Washington Territory. A much larger wholesale trade is going on here than is apparent to a casual observer; and, as time progresses it is bound to increase.

In pursuance of a call for the sheep-raisers of Wasco county to meet in convention on Monday, the 5th day of May, to deliberate on the feasibility of organizing a wool growers' association for the promotion of the wool-growing interests of Eastern Oregon, which has become one of the leading industries of this portion of our flourishing State, a good representation was present. Messrs. Floyd, Welles and Dufur were appointed to frame a constitution and by-laws for the government of an association, to report at the next meeting.

The body of the mail carrier who was drowned about six weeks ago, while crossing Lone Rock Fork of Lone Rock creek, Wasco county, and whose real name was Shields, was found Wednesday of last week near the mouth of Lone Rock Fork, in the last stage of decomposition. The deceased was about twenty-three years old. Having once belonged to the army, he deserted and changed his name to avoid pursuit and detection; but he is represented by those well acquainted with him as a very worthy man and citizen. His mortal remains were decently interred near where they were found on Lone Rock Fork.

THE TERRITORIES.

Petitions are in circulation on the Lower Sound for a subsidy to the Pacific Mail Company for a postal route to Puget Sound.

A gay time is anticipated at Seattle on the coming Fourth of July, if the posters sent out from there are to be taken as an indication of the patriotic citizens of that place.

The vote of the trustees of the Washington Insane Hospital, at their session at Steilacoom for resident physician, stood: Waughop 2, Sparling 2, Ballard 1. No election.

On Sunday before last, a boat in which were five South Americans returning from Point Agate to Port Madison, capsized in the harbor, but the occupants escaped with a ducking and the loss of cargo.

A special train went over the Northern Pacific on Sunday last, loaded with cattle and sheep for the Victoria market. A portion were left at Tenino, and driven to Olympia to be shipped, and the balance were taken to Tacoma.

The county commissioners of Thurston county extended the time for completing the Olympia-Tenino railroad until August 1, 1877. It is reported that a Scotch company has taken hold of the matter, and that the building of the road is assured.

Harry Johnson was convicted September, 1875, at Port Townsend, of assault and battery and sentenced to nine months' imprisonment. Acting Governor Struve has given him his liberty, having remitted the remaining time allotted for his confinement.

Tilton B Scott and John W. Miller were arrested at Boise City a short time ago as the parties who have been robbing the stage in that vicinity lately. They were held to answer in the sum of $3,000 each, and in default of which they were committed to jail.

The *Olympian* says it is reported that the location of the shipyard, to which allusion was made a few weeks ago in these columns, can now be secured on definite terms. The McKinney mill site and land at Priest's point are the considerations which will probably be the basis of negotiation.

Parties from the Puyallup valley report the hop yards as looking very promising indeed. The low prices realized for the last crop has materially checked the disposition to enlarge the area of yards, but the growers are exerting themselves to insure a bountiful crop this year. The fruit prospect also is very encouraging.

The total amount of tax levied in Walla Walla for 1875, was $48,719 07; collected, $39,628 53; delinquent, $9,036 54; amount received from other sources, $4,700 40; cash on hand May 1st, 1875, $4,170 45; amount paid out for various purposes, $46,036 88, including $9,330 00 to the Territory. Cash on hand May 1st, 1876, $5,271 61.

The man reported to have been killed by Deputy Sheriff Hawk during the recent outbreak at the Steilacoom penitentiary, was only dangerously wounded and is fast recovering. The last one of the escaping prisoners has been recaptured, so all they gained was some severe wounds and bruises and additional irons and more severe discipline.

The receipts at the Seattle postoffice during the first quarter of the present year (1876) were over twelve hundred dollars, while the expenses were only a little in excess of four hundred. The surplus money, over seven hundred dollars, was paid to contractors for carrying the mail. The Seattle office, comparing its income and expenses, is one of the best in the country.

During the first four months of the present year, 40,678 tons of coal were received at San Francisco from Washington Territory, and 12,114 tons from British Columbia. The total receipts from all sources were 160,000 tons English, Scotch and Australian coals are being pressed upon the market at ruinously low rates, the vessels bringing it at a few shillings a ton, as ballast. The immense expected receipts are depressing the market.

St. Andrew's Society of Washington Territory met at their hall in Olympia, on Saturday, May 6, with the full board of officers present. Considerable business of importance was transacted. The financial standing of the society was found to be very prosperous, which fact we are glad to learn, as the society is based on principles of mutual relief in times of need. The St. Andrew's Society, though only in existence in the Territory a little over one year, has proved a grand success.

Boston Wool Market.

[BY TELEGRAPH.]

BOSTON, May 13.—Domestic wool is in fair demand: but prices are low and unsatisfactory, with no prospect of a favorable change. Sales of fleece wool indicate no change in prices, although forced sales could only be made at concessions. Ohio and Pennsylvania fleeces selling at 39½@42c for X and 41½@42½c for XX, and Michigan and New Hampshire fleeces 25c, this is all that can be now realized for good average lots of Michigan. Transactions in coarse wool have been the largest in some weeks. The supply of new spring clip is arriving freely and holders are free sellers at current rates. Transactions for the week are 431,000 lbs, and include the Whitney clip of 40,000 lbs at an extreme price, which would be no criterion of market prices of new spring, ranges from 17 to 27c, and includes some very desirable lots at 24@25c and 27c. We quote fair and good average lots at 20@25c and choice at 26@30c, with an occasional fancy clip at an advance on the latter rates. Sale of new wool, so far, has scarcely realized the cost, and manufacturers purchase cautiously at current rates. Combing wool is dull, sales of washed at 45@45½c and a lot of very choice Kentucky at 46c, with skirts and tags and unwashed western at 35@36c. Pulled wools are in moderate request some choice lots of Maine and eastern supers sold at 43@44c; but the principal sales are supers and X at 31@40c.

European Grain Markets.

[BY TELEGRAPH.]

LONDON, May 12.—The grain trade remains depressed, and prices are tending downward. Notwithstanding the unpropitious weather and backwardness of crops, yesterday the provincial markets did not as a rule quote wheat at an actual decline, but buyers claimed a reduction of one shilling. The supplies of English wheat last week were 65,291 quarters for 150 market towns. Compared with April deliveries there was a large quantity, although considerably under the average of the ten preceding years. The average prices were Wheat, 45s 2d; barley, 34s 4d; oats, 26s 4d. In London the average prices were: Wheat, 45s 10d; barley, 34s 7d. The wheat fields in Eastern counties are reported to be looking yellow and poor, and the hay crop likely to suffer from unfavorable weather. In Mark Lane to-day English wheat was in small request; but samples were held at previous quotations. Foreign wheat was steady, barley, oats and maize unchanged, flour neglected.

LIVERPOOL, May 13.—A leading grain circular says brilliant weather continues, but without rain or improvement in temperature. Vegetation is still retarded. Wheat planted in some districts presents scarcity in appearance, and the season may be pronounced exceeding late. Reports from France are of even more pronounced character and transactions in wheat for the continent also of daily occurrence. Prices there are several shillings above ours. No change in any of our interior markets. Wheat here to-day is stronger, and a fair quantity of white sold for consumption and export to the continent at extreme rates. Red was in tolerably good request and sellers were demanding a slight advance. Flour is steady. Corn active and a shade higher.

Groceries in Europe.

LONDON, May 13.—Business in Mincing Lane continues dull although there are some articles which reached an exceptionally low point, including spices at two shillings per cwt. Numerous parcels have been withdrawn from public sale. Rice is in better demand but some common Madras on the spot sold at the lowest prices of the season per ton. Sugar exhibits no improvement; refining sorts barely support the former value, and crystals today sold lower. Tea is quiet; prices favor buyers.

San Francisco Markets.

[BY TELEGRAPH.]

SAN FRANCISCO, May 13.—Flour—Jobbing rates for extra $5 50@6.

Wheat—Shippers willing purchasers at $1 60 for desirable lots alongside, millers take rejected lots at $1 60@1 55, and pay $1 70 for choice.

Barley—Feed selling at $1 15@1 20. large lots to arrive could not be placed at over $1 10, brewing $1 20@1 25.

Oats—holders asking $2 10@2 35, but not selling much.

Hay—$10@18.

Potatoes—Heavy at 75c@$1 for all kinds of old now held at $1@1 50.

Dairy Products—Fresh roll butter dull at 25@30c, California fresh laid eggs weak at 27½@30c.

Trade dollars 92½ buying 93½@94½ selling; half dollars, 96@96½ buying 96½@97 selling.

Liverpool wheat market to-day, 9s 10d@9s 9d for average California; 9s 10d to 10s 2d for club.
